

FRAGILE EARTH DRAIN DEODORISER

CONCENTRATE

The active bacteria and enzyme content of Drain Deodoriser helps dissolve grease, fats, oils, starches, proteins, and cellulose that can accumulate in drains. Drain Deodoriser promotes the natural digestion of organic waste materials that create unwelcome odours especially effective in combatting odour producing bacteria that persist in cracks, recesses and hard to treat areas within the drainage system.

Drain Deodoriser is formulated for frequent use, creating a persistent microbial film within the drain that continues to feed on odour producing material. Drain Deodoriser acts quickly to neutralise the early stage breakdown of organic material that create the most offensive odours.

Safe to use with septic tanks and package treatment systems.

THIS IS NOT A DRAIN UNBLOCKER: For serious blockages or overflows mechanical or chemical solutions may be required to clear the drain.

INFORMATION:

- pH 6.0 – 6.8
- Nutrient content. Biological micronutrients, enzymes, biological enhancers, surfactants and stimulants
- Cream coloured, free-flowing liquid
- Fragrance. Natron
- Packaging. 500ml & 1-Litre
- Stability Max. loss of 1 log/yr
- Temperature. Optimal temperature range: 3°C - 63°C
- Bacteria Count. 1 Billion CFU*/g

PACK SIZES:

500ml and 1 Litre

INFORMATION:

Ph 6.0 – 6.8

Nutrient content Biological nutrients, enzymes and stimulants

APPLICATION

Add 100ml of Drain Deodoriser to 200ml of warm water and pour directly into the drain, lavatory or into the sink plug hole last thing at night.

Repeat every 2 weeks or when odours are first detected.

STORAGE & HANDLING

DO NOT FREEZE! Store upright in original container in a cool dry location. Avoid excessive skin contact.

PRECAUTIONS

Keep out of reach of children.

If swallowed consult a doctor and show the product label and packaging

CLASSIFICATION:

Non-hazardous.

CLP:

Not Classified. None required.

PACKAGING:

Container, lid and label recyclable.

*Colony Forming Unit
